

I Latin American Symposium of Biological Control
IV Chilean Symposium of Biological Control
8-10 October 2019

New alternatives for the agriculture of the future

An exciting meeting attended by the most important biological control scientists from the Americas.

The Technological Center of Biological Control, Institute of Agricultural Research of Chile (INIA), invites you to participate in the 1st Latin American Symposium of Biological Control and the 4th Chilean Symposium of Biological Control. This meeting will be held on 8-10 October 2019 at the Conference Center “Termas de Chillán”, Ñuble Region, Chile.

This event will gather renowned scientists from Chile and other countries worldwide and is oriented to researchers, BC practitioners, biological control agents’s suppliers, students, farmers and extensionists interested in acquiring the latest knowledge in the area of biological control.

Scope

- **Biological control of arthropods using predators and parasitoids.**
- **Biological control of arthropods using microbial agents.**
- **Control of arthropods using plant extracts.**
- **Biological control of plant-parasite nematodes.**
- **Biological control of diseases using microbial agents.**
- **Control of diseases using plant extracts.**
- **Biological control of weeds.**
- **New tools for biological control.**

Save the date, 8-10 October 2019, and participate in the diverse activities related to the Symposium:

- **Lectures from international specialists**

- **Workshops on on current issues in phytopathology**
- **Oral and poster presentations**
- **Suppliers's stands**
- **Outdoor activities at the Termas de Chillán (recognized as the Best Mountain Hotel of Chile and one of the Best 25 World's Ski Resorts by the World Ski Awards (2017))**
- **Trekking on the beautiful mountains.**
- **Welcome cocktail**
- **Dinner & dance**
- **Wonderful mountain environment**

Early October is an ideal time to visit Termas de Chillán. The beginning of the spring, with its temperate climate and the remnants of snow, creates a perfect atmosphere away from your regular routine, allowing you to share ideas and experiences with colleagues and friends interested in biological control. At the end of the working day, you will be able to take advantage of the hot springs, either outdoors or indoors.

Check the web page regularly, www.simposiocontrolbiologico.com, for:

- **The program for the Symposium**
- **Registration for the Symposium, training sessions and workshops**
- **BC suppliers**
- **Submission of oral or poster presentations**
- **Sponsors**
- **Key speakers**
- **Accomodation**
- **Key contacts**
- **Activities at the Termas de Chillán**
